## Growing Global Awareness

*“If only we unite our forces and work in a spirit of oneness.” Janssens 1949.*

1938 – GC 28 – Coord. of public impact at international level

1957 – GC 30 – call to develop cooperation among provinces.

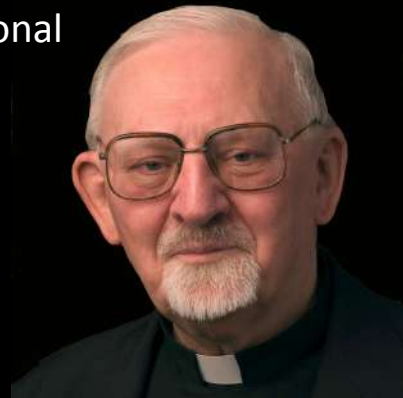

1966 – GC 31 – “Reach out readily and generously the universal good”  
Work “like a body that is one and apostolic.”

1975 – GC 32 – Awareness of international dimension of the problems  
and need to organize our answer (from F&J)

1983 – GC 33 – International Cooperation is named and recommended.

“We are not exploiting all the possibilities given by being and international apostolic body”

- 1995 – GC 34 – **DECREE 21 in inter and supra provincial cooperation.**  
urged to nourish, express, & challenge our “universal consciousness”  
“many problems are global in nature and require global solutions” CN

**Recommendation of global and regional networking.**  
(GC34, Decree 21)

- 1) Networking is **necessary** to carry out our mission.
- 2) The universal body of the SJ has an enormous **untapped potential**.
- 3) The development of networking in the SJ could not easily be foreseen and would inevitably **proceed by trial and error**.

“interconnectedness is the new context for understanding the world and discerning our mission.”

[...] Even when our structures have been very good ones, they are structures that started 500 years ago. !Its enough! It’s time to put the Society of Jesus in a state of creativity to answer the new times. We have times of lot of ambigüity, complexity and they ask for a change of structures [...]

Jesuits are called to collaborate and to network as the way of proceeding to be effective in our mission today. [...] Can you imagine how the standard of our institutions would improve if we formed an effective network?

The screenshot shows the homepage of the Jesuit Networking website. At the top left is the logo, which consists of three overlapping speech bubbles in blue, green, and red, followed by the text "Jesuit Networking" and the tagline "COMMUNICATE | RESEARCH | COLLABORATE". To the right of the logo is a search bar with a magnifying glass icon. Below the logo is a horizontal navigation menu with the following items: Home, The Project, Blog, Documents, Sign up, About Us, Donate, and Volunteering. The main content area features a large background image of a green, hilly landscape with a winding road. Overlaid on this image are several white speech bubble icons connected by thin white lines, suggesting a network. Text on the right side of the image reads: "The Ignatian Family is the natural landscape where new ways of collaboration and working can be fostered". Below the image, there is a section titled "Promoting collaboration through networking" with a link to "Read more...". To the right of this section is a paragraph: "Jesuit Networking is an international initiative to support the emergence of collaborative bottom-up innovation for the universal Mission within the wider Jesuit apostolic body. Read more...". Below this text is a grey subscription box with the text "Subscribe to our monthly newsletter", an input field labeled "email address", and a "SUBSCRIBE" button. At the bottom of the page are three icons with labels: a red speech bubble for "Communicate", a blue speech bubble for "Research", and a green speech bubble for "Collaborate".

This graphic design features three main elements. At the top center is the "IGNITED" logo, with the word "IGNITED" in large, bold, black letters and a sunburst graphic above it. Below "IGNITED" is the tagline "CONNECT • RESEARCH • EDUCATE". To the left of the "IGNITED" logo is the Jesuit Networking logo, which includes the three overlapping speech bubbles and the text "Jesuit Networking" and "COMMUNICATE | RESEARCH | COLLABORATE". Below the Jesuit Networking logo is the "educate magis" logo, which features a blue network diagram of interconnected nodes and the text "educate magis" in blue, with the tagline "Colaborar, Empoderar, Transformar." below it. To the right of these logos is a vertical list of six words: "Connect", "Research", "Educate", "Communicate", "Collaborate", "Empower", and "Transform".

“We are called to take better advantage of the global potential that exists in our numerous apostolic institutions for building networks. They can promote projects beyond provincial, national and continental boundaries. This endeavor requires a new thinking and the use of imagination and creativity. We hope that alumni can help us make this possible”

# Global Survey on Jesuit Collaboration & Networking

PRELIMINARY ANALYSIS | JULY 2017

Fr. Dani Villanueva SJ and Dr. Tina M. Facca-Miess

## METHODOLOGY

In May 2017, the Jesuit Networking project launched a global survey to better understand the quality and level of engagement within the Jesuit Network. The survey is still available for participation until August 31, 2017.

Please visit: [survey.jesuitnetworking.org](http://survey.jesuitnetworking.org)

### Online Survey

Purposive, snowball sampling

### Timeline

Preliminary results collected  
May 1-June 19, 2017  
Survey available until August 31,  
2017

### Language

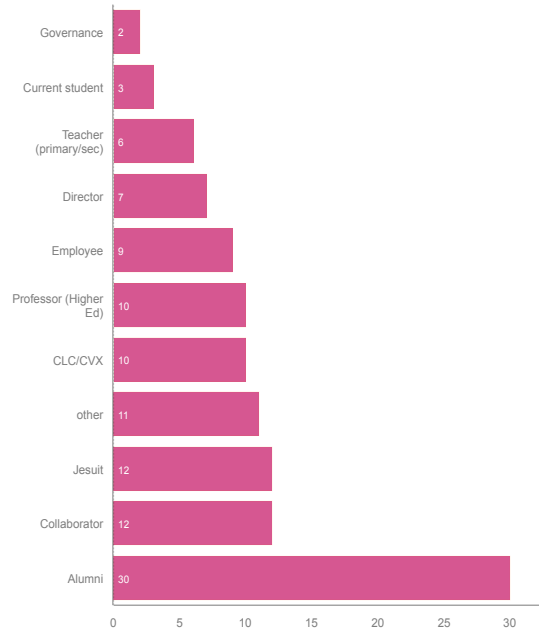

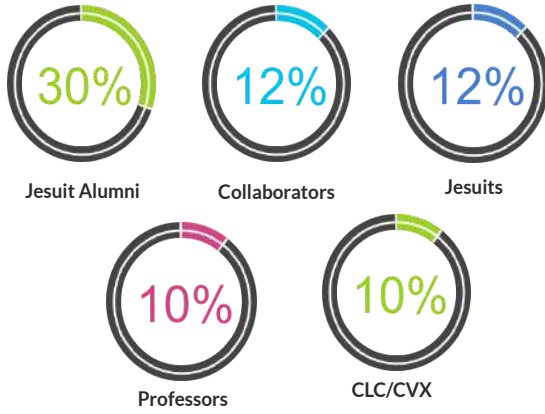

English, Spanish, French  
versions

### Participation

N = 2,218

**SOLID SAMPLE**  
A Variety of Respondents

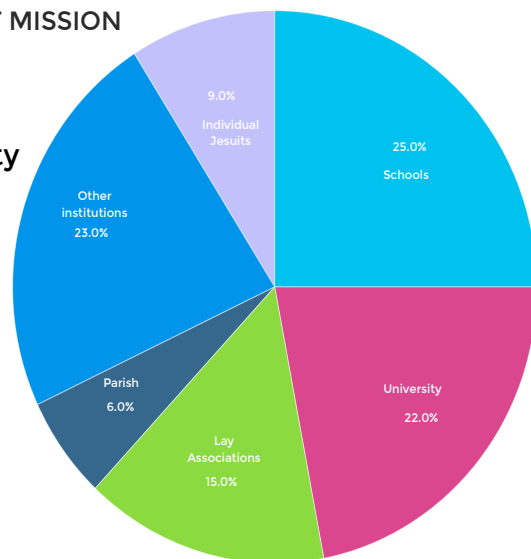

**PRIMARY LINK WITH JESUIT MISSION**

When asked for their primary link with the Jesuit Mission, the majority of respondents come from schools and universities.

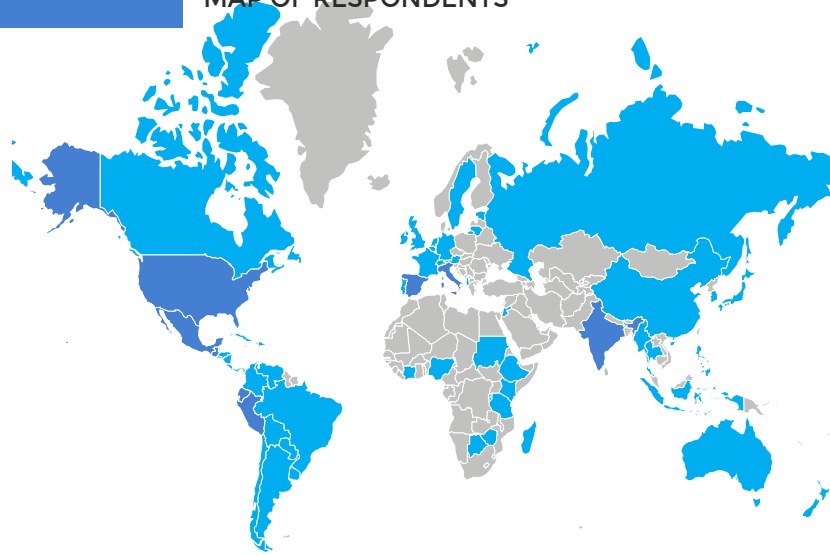

Lay associations, at 15%, include organizations such as WUJA, CLC/CVX and JFAN.

Other institutions include retreat houses, social centers and social work, among others.

### MAP OF RESPONDENTS

#### Top Responses

- Spain
- United States
- Ecuador
- Peru
- Guatemala
- Mexico
- India
- Italy

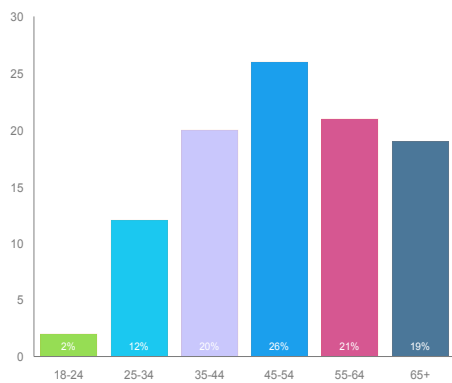

#### Regions still needed

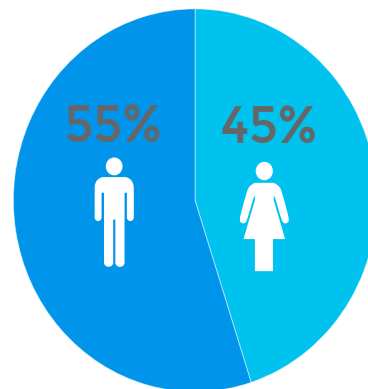

- Africa
- Asia

### BALANCE OF AGE & GENDER

AGE

GENDER

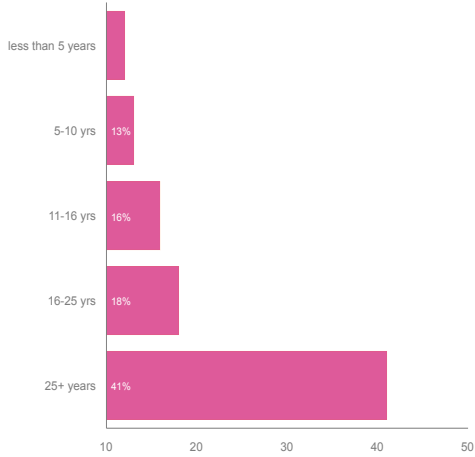

### YEARS INVOLVED IN JESUIT MISSION

25% involved 10 years or less

over 40% engaged 25+ years

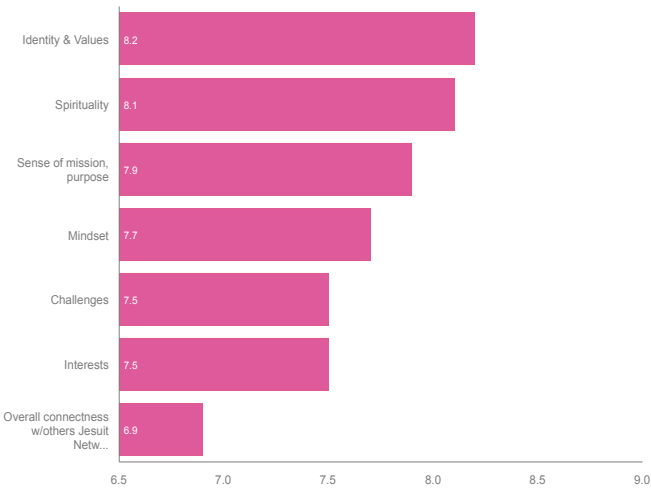

### SHARING IN THE MISSION

Participants report their sense of shared identity and values at 8.2 on a 1-10 scale, followed by spirituality at 8.1 and sense of mission at 7.9

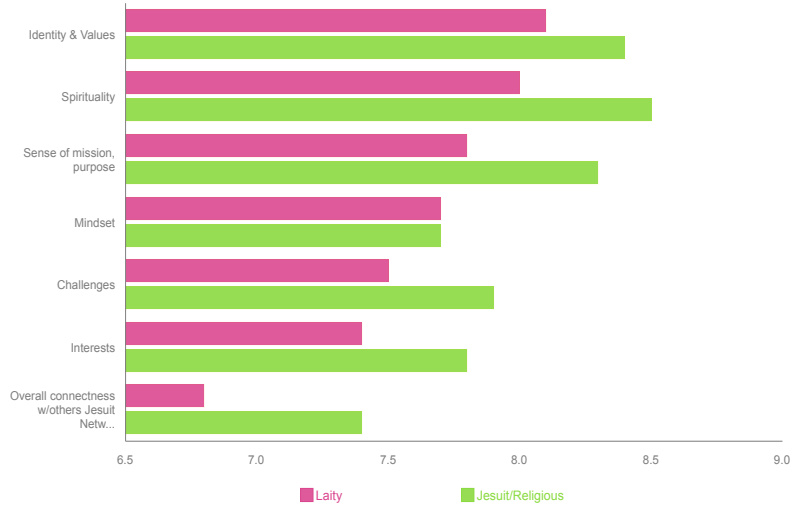

Overall connectedness with others in the Jesuit Network is rated lower at 6.9

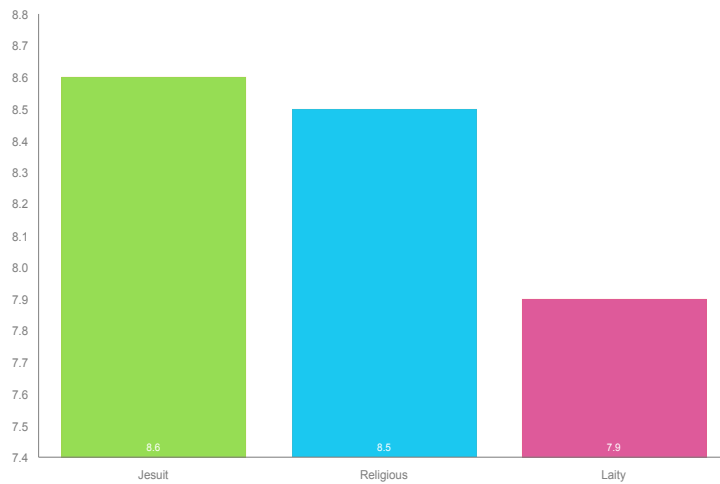

## SHARING IN MISSION - LAITY VS JESUITS/RELIGIOUS

Jesuits and Consecrated Religious are significantly more likely to feel they share in all aspects of mission and feel significantly more connected to others in the Jesuit Network. Interestingly, there is no difference at all in perceptions of sharing in mindset.

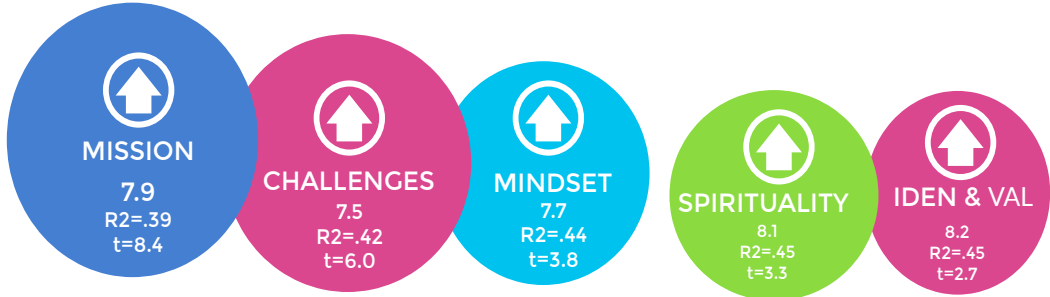

## FEELING PART OF SOMETHING BIGGER

Jesuits and Consecrated Religious significantly more likely to feel like they are part of something bigger, beyond their primary institution

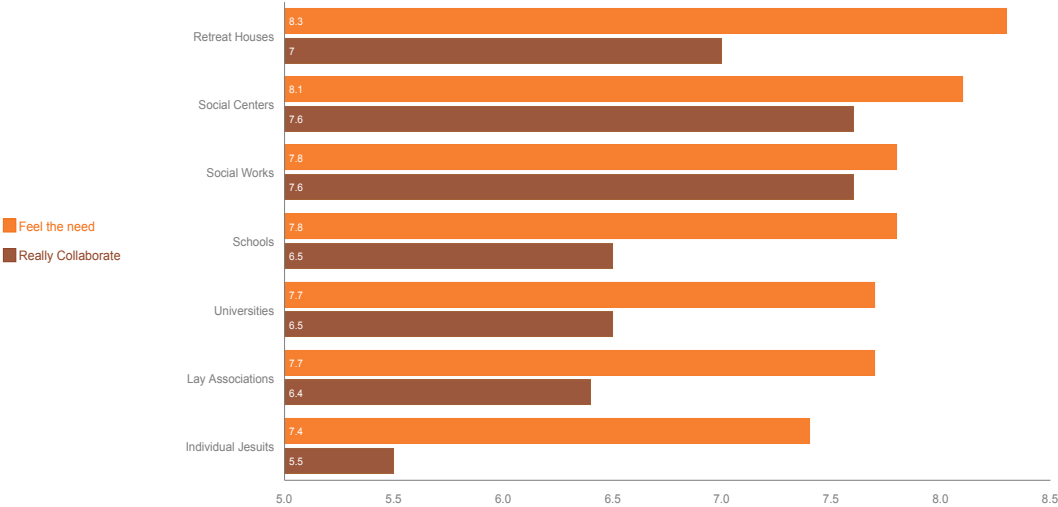

**DRIVERS OF OVERALL SENSE OF CONECTEDNESS**

**A shared sense of mission is the strongest driver, or most significant predictor, of a sense of connectedness**

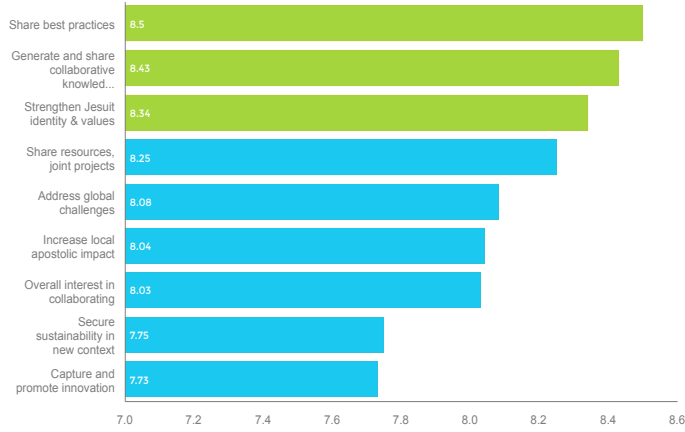

**Jesuits/religious** - strongest driver - shared spirituality - 8.5  
**Laiety** - strongest driver mission, sense of purpose - 8.2  
*Focus on spiritual development tools in the Ignatian tradition to enhance sense of connectedness in mission*  
 (Exercises, Examen, Ignatian Pedagogy) [JesuitResources.org](http://JesuitResources.org)

**FEEL NEED TO COLLABORATE BEYOND INSTITUTION vs CURRENT COLLABORATIVE REALITY**

## OVERALL REASONS FOR COLLABORATING

Overall interest in collaborating is rated at 8 (on 10 point scale)

### TOP 3 REASONS

**Share best practices**

**Generate and share knowledge**

**Strengthen Jesuit identity & values**

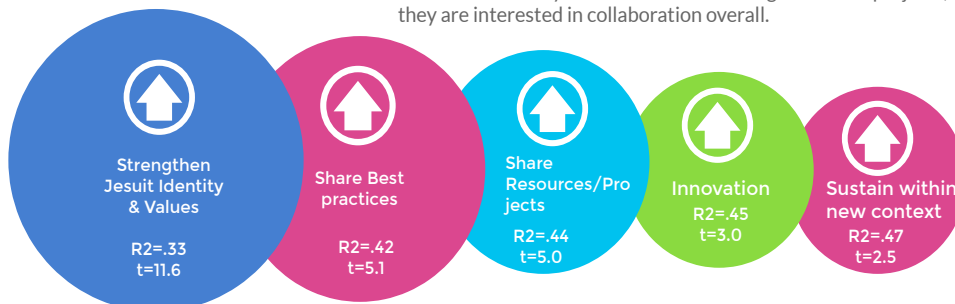

Key reasons for lay associations to collaborate are to share best practices, increase local apostolic impact in relation to mission in a global context, and to share resources and joint projects.

## DRIVERS OF INTEREST IN COLLABORATION

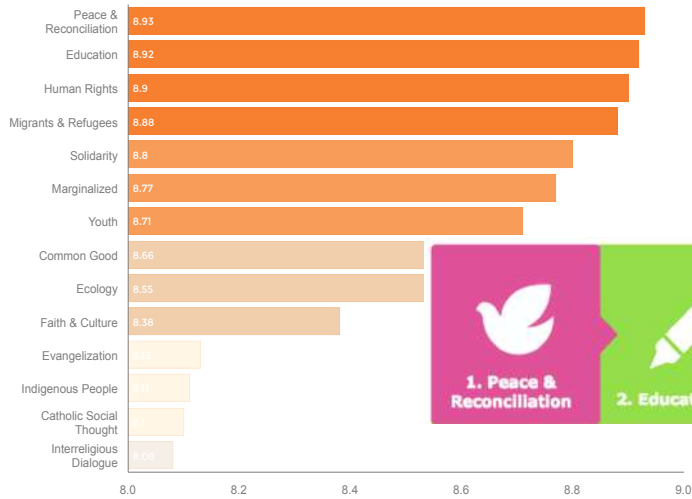

Interest in strengthening Jesuit identity and values is the key driver of collaboration

Among laity, sharing resources and joint projects explains most variation in interest in collaboration; yet strengthening Jesuit identity and values is strongest driver.

The more that laity are interested in sharing resources/projects, the more they are interested in collaboration overall.

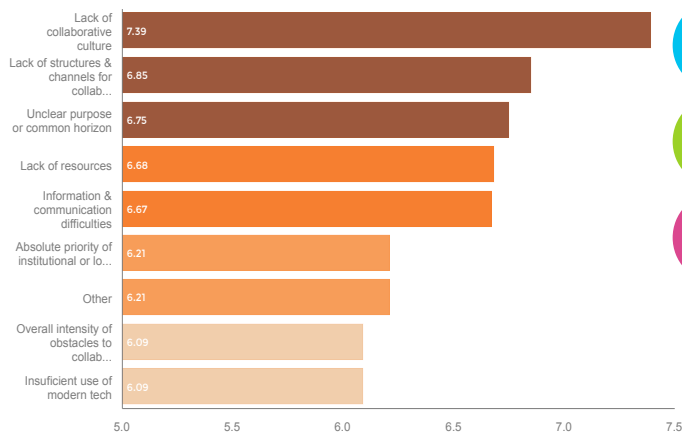

## TOPICS FOR COLLABORATING

Peace & Reconciliation, Education, Human Rights and Migrants & Refugees are the topics of more interest for collaborating initiatives.

## MAIN OBSTACLES TO COLLABORATION

### TOP 3 OBSTACLES

-  **Lack of collaborative culture**
-  **Lack of structure & channels**
-  **Unclear purpose or common horizon**

Jesuits/religious find the following to be significantly greater obstacles than do the laity: Absolute priority of institutional or local initiatives, lack of collaborative culture, lack of structure/channels, unclear purpose of common horizon.

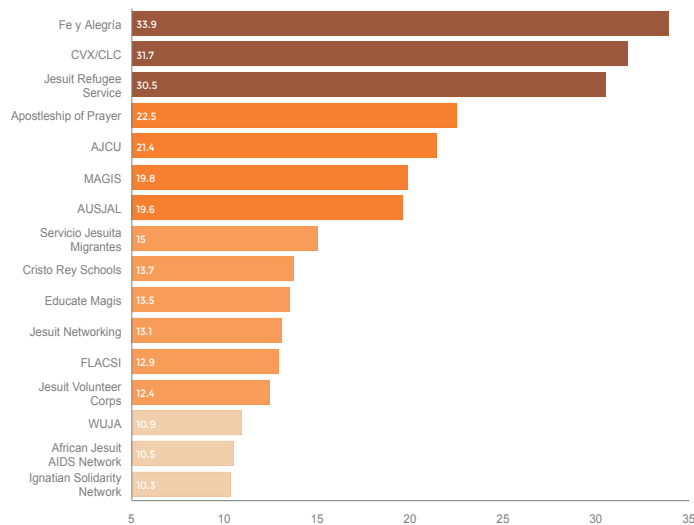

## MAIN OBSTACLES TO COLLABORATION / by Sectors

for SCHOOLS	for UNIVERSITIES	for LAY ASSOC.	for JESUITS
Lack of collaborative culture	Lack of collaborative culture	Lack of collaborative culture	Lack of collaborative culture
Lack of structure & channels	Unclear Purpose or common horizon	Unclear Purpose or common horizon	Lack of structure & channels
Information & Communication difficulties	Lack of structure & channels	Information & Communication difficulties	Lack of Resources for collaboration

Schools and Lay Associations find Communication Difficulties.  
 Universities and Lay Associations highlight an unclear purpose.  
 Jesuits are worried about the lack of resources for collaboration.

## MOST RECOGNIZED JESUIT NETWORKS

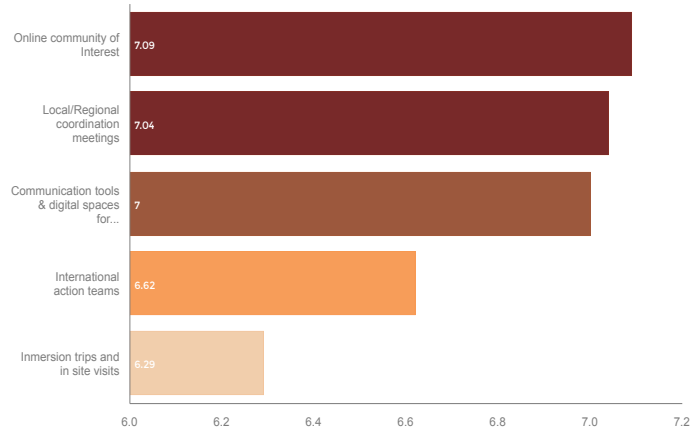

Fe y Alegría, CVX/CLC and Jesuit Refugee Service are the most recognized networks.

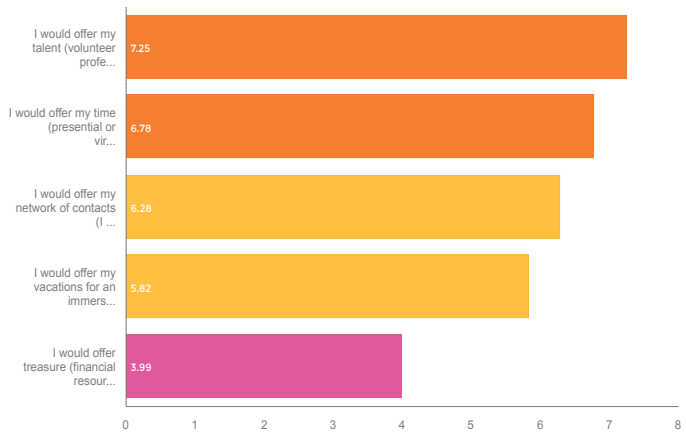

## LIKELY TO ENGAGE IN

Digital tools and regional coordination meetings are the way to engage with our respondents.

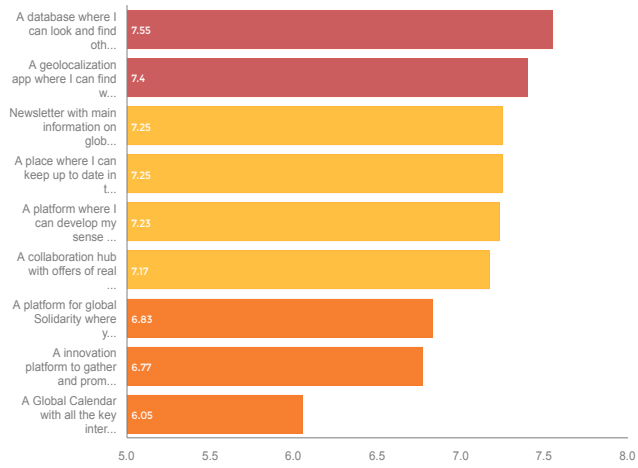

## WHAT I'M READY TO OFFER

Clearly we are ready to collaborate with our Talent and Time, also with our networking capacities. Attention to the low readiness to share financial resources.

## TOOLS WE ARE READY TO USE

The preferred tool is a database with profiles to find people and an App with geolocation features to locate jesuit resources on the move.

## COMMUNICATION METHODS

Email and social media are already the preferred communication methods in our network.

In person meetings are preferred to the teleconference or phone.
